- **Web Technologies :** HTML, CSS, JavaScript,Tailwind-CSS, Bootstrap
- **JS Libraries :** Swiper.js, GSAP, Lenis.js
- **Tools :** Git, GitHub, VS Code, Google Collab, Canva, Figma

Experience

Freelance Web Developer – School Website   *2025 – Present*

- I developed and deployed the official website for a government school, configuring hosting, domain, and server environments to ensure reliable uptime and scalability. The site integrated over 40 videos and 400 photos to showcase school activities and resources, and was optimized for performance, SEO, and accessibility. These improvements helped the website attract more than 10,000 monthly visits. I also managed ongoing content updates and maintenance, keeping the platform current, engaging, and user-friendly.

Projects

Portfolio Website (Personal Project) — Tailwind CSS, JavaScript, Animation Libraries
2025 – Present

- Designed and developed a personal portfolio website to showcase skills and projects.
- Implemented responsive UI using Tailwind CSS and interactive animations for improved user experience.

Government School Website (Freelance Project) — HTML, Tailwind CSS, JavaScript
2025 – Present

- Built and deployed the official school website, integrating 40+ videos and 400+ photos.
- Configured hosting and domain setup, optimized for SEO and accessibility, achieving 10,000+ monthly visits.

Movie Review Website (Personal Project) — Tailwind CSS, JavaScript   *2025 – Present*

- Created a dynamic web application for browsing and reviewing movies.
- Implemented responsive layouts and interactive features to enhance usability.
